Hon. ~~B. M.~~ Humpherys
State Engineer
State Capitol Building
Salt Lake City, Utah

Dear Mr. Humpherys:

RE: CALDWELL VS. ARMSTRONG et. al.-
Coal Creek, Cedar City, Utah

I am inclosing copy of amandments
to Interlocutory Decree and Order making Decree final.

If you have no objections to these
amendments and the order making the decree final with
the amendment it can be filed now and this matter
definitely settled.

All of the primary water users
and the Coal Creek Irrigation Company filed a stipu-
lation advancing the time of use of the April 1 users
of water to March 15 as an arbitrary date and that is
the only change that is actually made in the decree.

There is another order made where-
by the North Field Irrigation Company and the Union
Field Irrigation Company conveyed one and one-tenth c.f.s.
of water to the Bull Dog Ditch Association now incorpor-
ated as North West Field Irrigation Company but this is
a matter strictly between these parties.

I trust that these amendments and
order making the decree final will be satisfactory.

Yours very truly,

Reuben J. Shay
